BOARD OF SUPERVISORS IN SESSION

Election Officers Appointed, Excessive Loads on Highways Considered, and Much General Business

The Board of Supervisors met in regular session Monday, October 9, there being present Jos. M. Francis, presiding, Jas. T. Casey, Wm. H. Brown, John MacBain and C. V. Thompson.

The report of County Auditor J. J. Shields showing the aggregate amount against the several funds of the county for the month of October was received and ordered filed.

On motion of MacBain, seconded by Thompson, it was ordered that the election proclamation of Governor Hiram W. Johnson be published in the Times-Gazette of Redwood City.

County Surveyor J. V. Neuman addressed a communication to the board calling attention to certain fences that are being constructed by Mr. Albrecht on the San Mateo to Halfmoon Bay road. The communication stated that the fences were being built on the right of way belonging to the county, in some instances only 12 feet from the center of pavement. Although requested by the surveyor to allow a 50-foot right of way, the owner has refused to do so.

On motion of Brown and Thompson the matter was ordered referred to District Attorney Swart and County Surveyor Neuman.

Surveyor Neuman addressed a second communication to the board in which he showed that the total cost of repairing and oiling the San Gregorio creek road which was done under his supervision, was $5,620.12 together with an expenditure of $199.76 on repairing washouts and fills. The board ordered the above work done by Surveyor Neuman after rejecting the lowest bid received amounting to $9,585. The communication was received and ordered filed.

A request from Carl Gandolfo of the First Township for permission to remove a house belonging to him from the Thorton ranch to the Carroll ranch was ordered referred to Supervisor Casey.

A communication was received from John McReynolds, contractor on the Crystal Springs lake to Halfmoon Bay road, asking for an extension of time in which to complete the work. The request was granted on motion of MacBain seconded by Thompson.

The board adjourned at 12 o'clock for the noon recess.

AFTERNOON SESSION—

The board reconvened at 1:30 p. m., all members being present.

The regular monthly claims were ordered passed, on motion of Brown, seconded by Thompson.

On motion of MacBain, seconded by Thompson, it was ordered that the lights in the Menlo Park Lighting District be changed from 80 to 100 candle power and that the contract with the Pacific Gas and Electric Company be amended accordingly.

Supervisor Casey addressed the board and stated that he desired to have seven additional lights installed on El Camino Real south of Holy Cross cemetery to the South San Francisco line, the supervisor of the First Township agreeing to defray the cost of the said installation out of his own district, until such time as the section could be taken into the Colma Lighting District. After District Attorney Swart had addressed the board in the matter and had given his legal opinion therein, the above lights were ordered installed, on motion of Casey, seconded by Thompson.

District Attorney Swart addressed the board in reference to the request of Traffic Officer George Lowans for a month's leave of absence on account of illness. The district attorney explained that Lowan's leave would be taken without pay.

EXCESSIVE LOADS

Chairman Francis addressed the board in reference to the heavy hauling that is being done over the highways of the county, especially the San Pedro road. He stated this road was badly cut up and unless some action was taken toward putting a stop to the traffic of heavy trucks there would be nothing left of the road in a short time. He told of Traffic Officer Vallejo arresting a driver recently for hauling a load of grapes on the road, the weight of which was 12 tons.

Supervisor Casey in whose district the San Pedro road also runs concurred with Chairman Francis' remarks and urged that immediate steps be taken to put a stop to the heavy traffic. He stated that most of the hauling was done by San Francisco parties who had no interest in San Pedro county and contributed nothing towards its upkeep.

After further discussion on the part of the different members of the board it was ordered that District Attorney Swart prepare a suitable ordinance covering the traffic on the roads the understanding being that he would limit the weight of the load and vehicle to six tons.

COWARDLY APPEAL FOR VOTES

Mr. Wilson is telling his audiences that if Mr. Hughes is elected this country will surely be involved in war. Is not that a direct appeal to the cowardice of the American people. The sentiment of the men of this country is that there should never be any war except for two reasons. One is that the honor of the country must be maintained, the other is that the situation must be intolerable before a war is justified. Mr. Wilson sent the fleet to Vera Cruz. He said it was to vindicate the honor of the country and its flag, though it was difficult at the time to comprehend why the circumstances justified his position. He refused to even serve notice on Mexico that unless murder and looting of American citizens on the border ceased, he would stop them.

After that record it must require a strange order of mind on hi spart to imagine if another president were to take his place there surely would be war. There has been no danger of war with any European state since the war began.

There is liable to be danger when the war ceases.

Imagine Russia and Japan in close alliance, and determined to partition China between them even as they have already absorbed Manchuria and Mongolia; there really would be danger. Imagine western Europe and Great Britain in close alliance, drawn together through fear of the designs of Russia and Japan, and then imagine their reaching the conclusion that they want lands in South America and money from the United States on account of what is due their citizens in Mexico, which, while they were involved in war, the United States permitted to carry on a war of loot and murder, year after year, what might not happen? Then imagine the position we would be in with Mr. Wilson president!

But the above are only possible dangers. There is another far more obvious. With the tariff annihilated and factories closed and no merchant marine to handle our ocean commerce, what is to happen when, the war closed, the hordes of Europe begin to pour in and to enter into direct competition with American union labor?

Has Mr. Wilson ever thought of that? If he ever has he has never given any sign of it, or what he would do were that situation to materialize, though it is coming more probable than any foreign war.

When the Progressives come back they bring their punch with them.

Villa says he bears no grudge. Well, why should he? Haven't we always treated him as a perfect gentleman?

Shadow Lawn, as a residence for the next few weeks, will give it occupant an opportunity to get accustomed to the after-election gloom.

What has become of the old-fashioned man who used to say of President Wilson, "Ye-es, he does make mistakes, but I believe he's sincere."

The Democratic Congress has voted a tariff on dyes, thereby declaring in favor of the principle of protection How the party does change its colors.

If President Wilson were really earnest in telling the suffrage women "I come to fight for you," he would have put a suffrage measure through Congress by the same stop-watch method that he used to force the railway wage increase bill through.

"Peace, preparedness and prosperity" are claimed as the Democratic campaign cries. More appropriate ones would be "Pie, Pork and piffle."

And now nobody seems to know exactly what the new wage law means or to whom it applies. Another illustration of Democratic inefficiency.

—May in Cleveland Leader.

The board adjourned at 2:45 p. m. to meet Monday, October 16, at 10 a. m.

Here is reason enough why Mr. Wilson should be defeated. Why should Mr. Hughes be preferred? Gifford Pinchot, the Progressive, answers, giving facts to support his statement: "Hughes is a man of his word. * * * I cannot vote for Wilson because I cannot trust him. He does not do what he says. Hughes does. Therefore my choice is Hughes."

Hiram W. Johnson, the Republican nominee for United States Senate, will carry California by a majority of over 150,000. He has the backing of a united party which will roll up a big majority for the entire Republican ticket in November.

It's not to be wondered that Thomas A. Edison favors Wilson's re-election. The electrical wizard naturally likes anything that switches on and off.

"This is the land of the free and the home of the brave, and if it ceases to be the home of the brave it will soon cease to be the land of the free."—Charles E. Hughes in a speech delivered at Plattsburg, N. Y.

Mr. Hughes has made Mr. Wilson's policy of deciding a case and then getting the facts afterward one of the most pitiable exhibitions of weakness that even the present Administration can give.

Not every one can achieve greatness but everybody can be clean.

For the purpose of providing for the payment of the cost of the construction, improvement or acquisition necessary for and in completing said system of said highways and supplementing the fund created by said "State Highways Act," the State of California is hereby authorized to incur an indebtedness in the manner provided by this act in the sum of fifteen million dollars.

Immediately after the issuance of the proclamation of the governor, as provided in section eleven of this act, the treasurer of the state shall prepare fifteen thousand suitable bonds of the State of California in the denomination of one thousand dollars each, to be numbered from 1 to 15,000 inclusive, and to bear the date of the third day of July, 1917. The total issue of said bonds shall not exceed the sum of fifteen million dollars and they shall bear interest at the rate of four and one-half per cent per annum from the date of issuance thereof. The said bonds and the interest thereon shall be payable in gold coin of the United States of the present standard of value either at the office of the treasurer of said state or, at the option of the holder, at the fiscal agency for the State of California in the city of New York in the state of New York, at the times and in the manner following, to wit: The first three hundred seventy-five of said bonds shall be due and payable on the third day of July, 1923, and three hundred seventy-five of said bonds in consecutive numerical order shall be due and payable on the third day of July in each and every year thereafter until and including the third day of July, 1962. The interest accruing on all of said bonds that shall be sold shall be payable either at the office of the treasurer of the state or at said fiscal agency, as the holder may elect, on the third day of January and the third day of July of each and every year after the sale of the same. The interest on all bonds issued and sold shall cease on the day of their maturity and the said bonds so issued and sold shall on the day of their maturity be paid as herein provided and canceled by the treasurer of said state. The said coupons shall be consecutively numbered and shall bear the lithographed signature of the state treasurer who shall be in office on the third day of July, 1917. No interest shall be paid on any of said bonds for such time as may intervene between the date of said bond and the date of sale thereof, unless such accrued interest shall have been, by the purchaser of said bond, paid to the state at the time of such sale.

Sec. 3. The legislature shall provide by appropriation sufficient money to defray all expenses that shall be incurred by the state treasurer in the preparation of said bonds and in the advertising of the sale thereof, as in this act provided.

Sec. 4. When the bonds authorized by this act to be issued shall have been signed, countersigned, endrosed and sealed as in section one provided, the state treasurer shall sell the same in such parcels and numbers as the governor of the state shall direct, to the highest bidder for cash. The governor of the state shall issue to the state treasurer such direction immediately after being requested so to do, through and by a resolution duly adopted and passed by a majority vote of the advisory board of the department of engineering. Said resolution shall specify the amount of money which, in the judgment of said advisory board, shall be required at such time, and the governor of the state shall direct the state treasurer to sell such number of said bonds as may be required to raise said amount of money and that said bonds shall be sold in consecutive numerical order commencing with the first three hundred seventy-five thereof. The state treasurer shall not accept any bid which is less than the par value of the bond plus the interest which has accrued thereon between the date of sale and the last preceding interest maturity date. The state treasurer may at the time and place fixed by him for said sale continue such sale as to the whole or any part of the bonds offered to such time and place as he may at the time of such continuance designate. Before offering any of said bonds for sale, the said treasurer shall detach therefrom all coupons which have matured or will mature before the date fixed for such sale. The state treasurer shall give notice of the time and place of sale by publication in two newspapers published in the city and county of San Francisco and in one newspaper published in the city of Oakland, and in one newspaper published in the city of Los Angeles and in one newspaper published in the city of Sacramento once a week for four weeks next preceding the date fixed for such sale. In addition to the notice last above provided for, the state treasurer may give such further notice as he may deem advisable, but the expenses and cost of such additional notice shall not exceed the sum of five hundred dollars for each sale so advertised.

There is hereby created in and for the state treasury a fund to be known and designated as the "Second State Highway Fund," and immediately after such sale of bonds the treasurer of the state shall pay into the state treasury and cause to be placed in said second state highway fund the total amount received for said bonds, except such amount as may have been paid as accrued interest thereon. The amount that shall have been paid at such sale as accrued interest on the bonds sold shall be by the treasurer of the state, immediately after such sale, paid into the treasury of the state and placed in the "Second State Highway Interest and Sinking Fund," which is hereby created.

Of the moneys placed in the said second state highway fund, pursuant to the provisions of this section, the sum of twelve million dollars, or so much thereof as may be necessary, is hereby made available, and shall be used exclusively for the acquisition of rights of way for and the acquisition, construction and improvement of the uncompleted portions of the system of state highways prescribed by said "State Highways Act."

And of said moneys so placed in said second state highway fund, the sum of three million dollars, or so much thereof as may be necessary, is hereby made available and shall be used exclusively for the acquisition of rights of way for, and the acquisition, construction and improvement of certain extensions from said system of state highways prescribed by said "State Highways Act" as follows: An extension connecting the interior and coast trunk lines in northern California through Trinity and Humboldt counties by the most direct and practical route; an extension connecting the San Joaquin valley trunk line at a point between the city of Merced in Merced county, and the city of Madera, in Madera county, with the coast trunk line at or near the city of Gilroy in Santa Clara county, through Pacheco pass, by the most direct and practical route; an extension of the Mariposa county state highway lateral to or near the railway station El Portal, in Mariposa county; an extension connecting the San Joaquin valley trunk line in Tulare county with the coast trunk line in Monterey county, by the continuation of the lateral between the cities of Visalia and Hanford through Coalinga by the most direct and practical route; an extension connecting the San Joaquin valley trunk line at or near Bakersfield with the coast trunk line in San Luis Obispo county, through Cholame pass, by the most direct and practical route; an extension of the San Bernardino county state highway lateral to Barstow, in San Bernardino county, by the most direct and practical route; an extension connecting Antelope valley, in the county of Los Angeles, with the city of Los Angeles, by the most direct and practical route; and an extension of the San Bernardino county state highway lateral to the Arizona state line near the town of Yuma, Arizona, via the cities of Brawley and El Centro in Imperial county, by the most direct and practical route; provided, however, that expenses of the acquisition, construction and improvement of the extensions above enumerated and the acquisition of rights of way therefor, shall be partly borne by the county or counties in which such extensions lie, the extent and character of such division of expenses between the state and county shall rest for final determination with the state department of engineering and said department is hereby authorized to enter into such agreements and undertakings as are necessary to properly carry out the intent of this section.

The route or routes of said state highways to be acquired, constructed or improved under the provisions of this act shall be selected by the department of engineering in the manner provided by and to carry out the objects of said "State Highways Act" and in the manner provided by and to carry out the objects of this act.

Moneys shall be drawn from said second state highway fund for the purposes of this act upon warrants duly drawn by the controller of the state upon demands made by the department of engineering and allowed and audited by the state board of control; provided, however, that out of the proceeds of the first sale of bonds made hereunder the state controller and the state treasurer shall transfer upon their respective books the sum of one hundred thousand dollars to the credit of the "State Highway Revolving Fund," which fund is hereby created in the state treasury. The moneys in said state highway revolving fund, or such part thereof as the advisory board of the department of engineering shall deem necessary, may be expended, from time to time, upon the demands of the department of engineering, approved by the state board of control, for the purpose of making cash payments in advance for such expenditures as are necessary and proper to carry out the provisions of this act. Upon receipt of such demands, so approved, it shall be the duty of the state controller to draw his warrant upon said "State Highway Revolving Fund" in favor of the person or persons therein named, and the state treasurer shall pay the same. On or before the tenth day of each month thereafter, the department of engineering shall submit to the state board of control a verified itemized statement, showing all expenditures during the preceding calendar month of the moneys so withdrawn from said "State Highway Revolving Fund," accompanied by proper vouchers and receipts therefor. Such statements shall be audited by the state board of control in the same manner that claims against the state are audited, and, if found to be correct, shall be approved by the state board of control and transmitted to the state controller with such approval endorsed thereon. The state controller shall thereupon draw his warrant upon the "Second State Highway Fund" in favor of the department of engineering for the aggregate amount of such expenditures, and upon the surrender of such warrant properly endorsed, the state treasurer shall trnsfer the amount thereof upon the books of his office from the said "Second State Highway Fund" to the said "State Highway Revolving Fund," to be expended as aforesaid.

Sec. 5. There is hereby appropriated from the general fund in the state treasury such sum annually as will be necessary to pay the principal and the interest on the bonds, issued and sold pursuant to the provisions of this act, as said principal and interest becomes due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

The treasurer of the state shall, on the first day of January, 1918, and on the first day of each July and the first day of each January thereafter transfer from the general fund of the state treasury to the "Second State Highway Interest and Sinking Fund" such an amount of the money by this act appropriated as shall be required to pay the interest on the bonds theretofore sold, until the interest on all of said bonds so sold shall have been paid or shall have become due in accordance with the provisions of this act.

There is hereby created in the state treasury a fund to be known and designated as the "Second State Highway Sinking Fund." The treasurer of the state shall on the first day of July of the year 1923, and on the first day of July, of each and every year thereafter in which a parcel of the bonds sold pursuant to the provisions of this act shall become due, transfer from the general fund of the state treasury to the said second state highway sinking fund such an amount of the moneys appropriated by this act as may be required to pay the principal of the bonds so becoming due and payable in such years.

Sec. 6. The principal of all of said bonds sold shall be paid at the time same becomes due, from the second state highway sinking fund, and the interest on all bonds sold shall be paid at the time said interest becomes due, from the second state highway interest and sinking fund. Both principal and interest shall be so paid upon warrants duly drawn by the controller of the state upon demands audited by the state board of control, and the faith of the State of California is hereby pledged for the payment of the principal of said bonds so sold, and the interest accruing thereon.

Sec. 7. The state controller and state treasurer shall keep full and particular account and record of all their proceedings under this act and they shall transmit to the governor in triplicate an abstract of all such proceedings thereunder with an annual report in triplicate, one copy of each to be by the governor, laid before each house of the legislature biennially. All books and papers pertaining to the matter provided for in this act shall, at all times, be open to the inspection of any party interested, or the governor, or the attorney general, or a committee of either branch of the legislature or a joint committee of both or any citizen of the state.

Sec. 8. The highway constructed or acquired under the provisions of this act shall be permanent in character and be finished with oil or macadam or a combination of both, or of such other material as in the judgment of the said department of engineering shall be most suitable and best adopted to the particular locality transversed. The state department of engineering, in the name of the people of the State of California, may purchase, or receive by donation or dedication from counties, or from public or private persons, or it may lease, any right of way, rock quarry or land necessary or proper for the construction, use, improvement or maintenance of said state highway and shall proceed, if necessary, to condemn under the provisions of the Code of Civil Procedure relating to such proceedings any necessary or proper right of way, rock quarry or land. The department of engineering in accordance with law shall have power and authority to purchase, sell, exchange, lease or otherwise acquire or dispose of all suppliese, stock material, machinery and implements and do all other things necessary or proper in the construction, improvement or maintenance of said state highway. The department of engineering in accordance with law shall have power and authority to purchase, lease, or erect plants for manufacture of cement, crushed rock and other materials used in road or highway work, and also the power to dispose of said plants when no longer required for such purposes. With the exception of those public highways which have been permanently improved under county or permanent road division bond issues within nine years prior to the adoption of this act, all public highways within this state lying within the right of way of said state highway as determined and adopted by the department of engineering shall be and the same shall become a part of the right of way of said state highway, without compensation being paid therefore; provided, nothing herein contained shall require the state to maintain any highway along or on said right of way, prior to the completion or acquisition of the permanent improvements contemplated by this act. Whenever any money received from the sale of bonds under the provisions of this act, shall be expended in any county in this state, such county must pay into the state treasury, such sum each year as shall equal the interest, at the rate of four and one-half per cent per annum, upon the entire sum of money expended from the proceeds of the bonds issued under this act within such county in the construction of said state highway, less such proportion of said amount expended as the bonds matured under the provisions of this act shall bear to the total number of bonds sold and outstanding; provided, however, that in all cases where, by reason of physical difficulties to be overcome, or other good and sufficient cause, the state department of engineering shall determine that the cost of construction of any portion of such state highway in any county, or counties, is so great as to entail an unjust and inequitable burden upon any such county, or counties, in refunding to the state the sums so paid for interest upon the bonds sold and the proceeds thereof applied as aforesaid, such county, or counties, shall not be required to refund the whole amount of such interest, but only such proportion thereof as the state department of engineering shall adjudge to be fair and reasonable. All highways constructed or acquired under the provisions of this act shall be permanently maintained and controlled by the State of California.

Sec. 9. This act, if adopted by the people, shall take effect on the thirty-first day of December, 1916, as to all its provisions except those relating to, and necessary for, its submission to the people and for returning, canvassing and proclaiming the votes, and as to said excepted provisions this act shall take effect ninety days after the final adjournament of the present session of the legislature.

The governor of this state shall include the submission of this act to the people as aforesaid, in his proclamation calling for said general election.

Sec. 11. The votes cast for or against this act shall be counted, returned and canvassed and declared in the same manner and subject to the same rules as votes cast for state officers, and if it appears that said act shall have received a majority of all the votes cast for and against it at such election, as aforesaid, then the same shall have effect as hereinbefore provided and shall be irrepealable until the principal and interest of the liabilities herein created shall be paid and discharged, and the governor shall make proclamation thereof. But if a majority of the votes cast, as aforesaid, are against this act then the same shall be and become void.

Sec. 12. It shall be the duty of the secretary of state to have this act published in at least one newspaper in each county, or city and county, if one be published therein, throughout this state, for three months next preceding the general election to be holden in the month of November, A. D. nineteen hundred and sixteen; the cost of publication shall be paid out of the general fund, on controller's warrants duly drawn for the purpose.

Sec. 13. This act shall be known and cited as the "State Highways Act of 1915."

A STATE AND NOT A LOCAL ISSUE

In deciding Prohibition it must be considered as a STATE question.

It is not a local issue.

It is not local, because there are more than 60 laws on the statutes governing the sale and use of alcoholic beverages.

These can and have been used to meet specific conditions in every community in the state, down to the smallest unit.

In nearly every section, under the Wyllie and initiative and referendum laws, local matters have been threshed out.

LOCAL sentiment has been met.

But state-wide prohibition is different. In that phase it involves conditions throughout ALL of California.

It involves the expressed sentiment of the larger cities. All of these voted overwhelmingly against prohibition in 1914. In these cities reside 61 per cent of the state's population.

It involves general conditions in the counties at large. Out of 58 counties in the state, 45 returned majorities against prohibition in 1914.

LOCALLY all these counties had settled the question. Within their own boundaries they had prohibition or not as the majority wished.

But these counties voted against state-wide prohibition because:

IT COULD GIVE THEM NOTHING IN THE SHAPE OF LAW WHICH IS NOT ALREADY ON THE STATUTES.

They voted against prohibition knowing:

That California is a cosmopolitan state. Nearly every nationality and creed is represented, especially in its cities.

That life-long customs prevailing in these cities cannot be converted over night. And it is the custom of thousands to use wine or beer with their meals.

That it is impossible to make a crime of a custom which has never been considered such.

That it is manifestly unjust to outlaw the natural rights of thousands because A FEW ABUSE those rights.

Amendments 1 and 2 mean Prohibition

WILL BE APPOINTED TO ANNAPOLIS

U. S. Congressman E. A. Hayes Writes that He Will Name Norman Mckee

Congressman E. A. Hayes of San Jose notified the editor of the Times-Gazette yesterday that he would appoint Norman McKee of Woodside to a cadetship at Annapolis. Young McKee has already began tutoring for the examination which takes place at Washington next February. His friends have every confidence that he will pass the physical and mental examinations and become a cadet at the naval training academy. Young McKee has left the local high school which he has been attending for the past two years and has settled down to earnest work for the examinations. Mr. Hayes said "I feel quite sure young McKee will make good if he succeeds in passing the physical and mental examinations. He is a splendid young man and I feel he will reflect credit upon the community in which he was born and raised."

At ameeting of the Republican county committee held some weeks ago a strong resolution was adopted endorsing the candidacy of the young man for a cadetship and the resolutions were forwarded to Congressman Hayes with other strong endorsements. The prompt manner in which Mr. Hayes has responded in appointing McKee shows that this locality has a friend in Mr. Hayes who is ever alert to the wants and demands of his constituency. No reasonable demand will ever be turned down by our popular congressman. The people know this and this may account for the big majority Mr. Hayes always received in San Mateo county.

Norman McKee is the son of Dr. and Mrs. McKee of Woodside and grandson of John A. Hooper, the lumber magnate of San Francisco and Woodside. For the past two years he has been a student at the high school here and during that time has made a splendid record. Professor McCrea, principal of the high school, speaks in the highest terms of the ability and industry of Young McKee. He declares that he is made of the stuff from which fearless naval officers are fashioned. Mr. McCrea says that McKee possesses all the attributes to make him a fearless and successful naval officer who will be a credit to the community and to his native State. Many instances have been recited going to show the young man's prowess in football and other athletics. It has been shown that boys much larger could not bully him or force him to do things he did not want to do. Young McKee attended the Woodside grammar school before coming to the high school at Redwood City. His record there is also a splendid one.

BUILDERS' CONTRACTS—

The following builder's contracts were filed in the county recorder's office during the week.

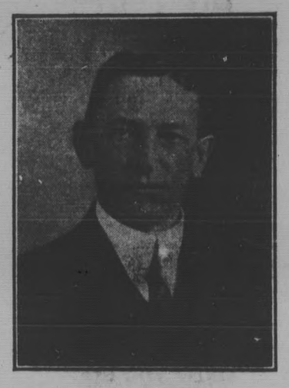
O. Johnson who moved to Redwood City six months ago is soon to return to his first love, old Woodside, where he had been in the butcher business for many years before going to the county seat. His old friends will be glad to welcome him back.

A corporation is being organized for the purpose of establishing a first class roadhouse and cafe in Woodside. The location of the proposed eating house will be at the adobe corners. The place is to cater to automobile travel which is very extensive here particularly during the summer months. Work on the buildings will begin very soon.

Mrs. Mary Borel, widow of the late Antoine Borel, has sold 800 acres of land in the Alpine district to James Rolph Jr. The property is known as the Wilson ranch and it adjoins the estate of Mr. Rolph. The price as stated by the San Francisco dailies is much exaggerated. These journals stated that $200,000 was paid for the property when probably $40,000 was the proper figure.

Mrs. Margaret McCormick, a resident of Woodside for the past forty years, has moved to San Mateo to reside with her daughter, Mrs. Geo. Jenkins. The home here has been leased to San Francisco parties. Mrs. McCormick came to Woodside when there were but few houses and not many people. She did not want to leave but owing to old age and infirmities has made it necessary for her to be near her daughter.

FRANK L. EKSWARD VISITS REDWOOD CITY



Frank L. Eskward

Frank L. Eskward, nominee for Assembly, was in town yesterday and is preparing a vigorous campaign for the office. His friends are rallying to him all over the county and from present indications he will be elected. Mr. Eskward is secretary of the San Mateo County Development Association, a position he has held for some years. Owing to his intimate knowledge of the needs and wants of the county he would make a splendid representative at Sacramento. On account of his promotion work he is in close touch with the people and knows their every desire. Clubs will be organized next week in San Mateo and Redwood City on his behalf. Mr. Eskward will make a house to house canvass of the county. He is backed by nearly every newspaper in the Peninsula.

Additional Locals

The increasing business of Mr. Noftz makes it imperative for him to purchase an up to date machine to deliver his orders about town and at Atherton. His candy and icecream are very popular with all the people in the community.

Duncan McPherson the patriarchal editor of the Santa Cruz Sentinel was in town calling on old friends yesterday. Mr. McPherson is one of the trustees of Agnews State hospital and while there came over to visit his old friends. Mr. McPherson edited the Times-Gazette forty years ago. He loves to tell of those days of long ago and the way they did politics in those ancient times. The politician of today with all his up to date methods was not in it with those of that date After editing the Times-Gazette for five years Mr. McPherson sold the paper to H. N. Nutting and went to Santa Cruz where he invested heavily in real estate and now has property in Santa Cruz worth more than $300,000. Though nearly 78 years old he is still in harness and edits a very newsy paper.

LAND TRANSACTIONS OF IMPORTANCE

The University Realty Company reports a greater activity in the sale of real estate than has existed since the beginning of the European war in August, 1914. All of these sales have been closed within the month of September and since the first of October an exceedingly important sale has been closed involving the purchase by Gertrude M. Gardiner, Norwood B. Smith and William Cranston of the easterly corner of University avenue and Bryant street in the City of Palo Alto. This is a large holding, 100 by 125 feet, adjacent to the property for some time owned by the late ex-sheriff J. H. Mansfield of Redwood City. DUCK, QUAIL, RABBIT TO-MORROW

The duck, quail and rabbit season opens tomorrow and local nimrods are prepared to make an onslaught on the birds. Quail are quite plentiful in the foot-hills while big flights of ducks have recently came down from tthe north to the marshes. The present cold snap has driven the birds from the northern haunts. All hunters are looking forward to a successful hunting season.

It is not lawful to shoot ducks tomorrow, according to the United States authorities.

It is lawful, according to the State Fish and Game Commission.

Nearly all of the regular duck shooting contingent will accept the interpretation of the State government, and Sunday morning will find them on the marshes.

At any rate there will be no federal officers on watch next Sunday and, unless a test case is made, no one expects any interference.

HELD FOR EXAMINATION

Curt Meier, charged with embezzeling his employer's funds at San Bruno some weeks ago, came up for sentence before Judge Buck yesterday afternoon, he having previously pleaded guilty. Meier embezzled $111 from Harry Palmer, his employer at San Bruno last July and ran away spending half of the money before he was apprehended by the officers. His mother was in court and made a stirring plea for her erring son. The district attorney informed the court that the young man had spent a term in the Ione Reform school. Meier is 24 years old but possesses a low order of mentality and for that reason the court was puzzled to know what disposition to make of the case. Finally the court decided to submit the young man to an examination for his mentality to Professor Louis M. Terman of Stanford, an authority on mental defects of children. Meier will be in charge of the probation officer for the time being. F. A. Reynolds addressed the court in his behalf.

BIRD ADMITTED TO PROBATION

Carl Bird, the chauffeur who ran into a milk wagon some time ago at Belmont and continued on his journey to San Francisco without ascertaining the extent of the injury to the driver or of rendering him any assistance, and who was recently found guilty by a jury in the superior court, came up for sentence yesterday afternoon. His attorney, J. J. Bullock made an eloquent appeal for mercy for the young man saying that a settlement had been made with the owner of the milk wagon for the amount of damage caused to the vehicle. Owing to the youth of defendant and his general reputation for good Mr. Bullock urged that he be admitted to probation. The court after giving the young man some wholesome advisc admitted Bird to probation for the term of one year. He is to report to the court every month. He is not to enter a saloon or drink intoxicating liquor for one year. At the time of the collision, Bird was in the employ of A. Taylor at Menlo Park.

How Does an Oven Bake?

Perhaps you know that in every range for coal or wood there are strips of metal fixed so the heat will be carried to the oven

Did you ever look inside to see how they are placed—if they force the heat to every part—or leave some corners cool?

There is a flue strip in WEDGEWOOD CAST-IRON RANGES which makes the heat go *all* around the oven—across the top, down the side, under the entire bottom, into every corner before it is drawn up the side, to the top and out the chimney

This Double Flue distributes the heat evenly about the whole oven

This means that biscuits, bread, roasts, pudding—everything—are baked uniformly—the bottom is as well done as the top, with a delicate brown on all parts

The construction of the flues is one of the reasons why WEDGEWOOD CAST-IRON RANGES have Perfect Baking Ovens

The dealer in your town who carries first quality merchandise will gladly show you the WEDGEWOOD RANGE with this Perfect Baking Oven—his name is

FAMILIES SPLIT ON CAMPAIGN

Wives of Wilson Supporters Will Take Stump For Governor Hughes.

DIVERTING CAMPAIGN PHASE.

Washington.—Families are being divided by the present political issues. Here are a few examples: J. A. H. Hopkins of New Jersey is treasurer of the Progressive (genuine) national committee and has announced that he personally favors the re-election of Wilson. Mrs. Hopkins is a member of the Woman's party and will take the stump and do all she can to prevent the election of Wilson.

Gifford Pinchot is for Hughes and all the militarism Hughes and his backing can secure. Amos Pinchot, his brother, is a member of the American Union Against Militarism and will support Wilson as the lesser of two evils. Representative William Kent of California is a wild eyed enthusiast for Wilson and is heading a Wilson non-partisan league, while Mrs. Kent is a member of the Woman's party and will stump for the defeat of Wilson.

George Middleton has allied himself with the group of writers who have announced themselves for Wilson, while his wife, Fola La Follette, is one of the members of the Congressional union who will hold Wilson responsible for the defeat of the Susan B. Anthony amendment. Meredith Nicholson is a Wilson supporter, but Mrs. Nicholson will write and stump against Wilson on account of his attitude toward the federal suffrage amendment. Mrs. Louis F. Post is a member of the Woman's Peace party and an ardent Tolstoyan pacifist. Louis F. Post, assistant secretary of labor, is for the administration's "reasonable" program of preparedness.

Mr. Wilson says his mind is progressive, but those who try to follow its progress can never tell the direction it is taking. It is just as likely to be progressing backward as forward.

IN PREPAREDNESS THE ADMINISTRATION HAS FOLLOWED, NOT LED.

In the demand for reasonable preparedness the administration has followed, not led. Those who demanded more adequate forces were first described as "nervous and excited." Only about a year and a half ago we were told that the question of preparedness was not a pressing one; that the country had been misinformed. Later, under the pressure of other leadership, this attitude was changed. The administration, it was said, had "learned something," and it made a belated demand for an increased army. Even then the demand was not prosecuted consistently and the pressure exerted on congress with respect to other administrative measures was notably absent.

We are told that the defects revealed by the present mobilization are due to the "system." But it was precisely such plain defects that under the constant warnings of recent years, with the whole world intent on military concerns, should have been studied and rectified. The administration has failed to discharge its responsibilities. Apparently it is now seeking to meet political exigencies by its naval program. But it has imposed upon the country an incompetent naval administration. —From Mr. Hughes' Speech of Acceptance.

Hughes Points the Way

The speech of the Republican candidate for president was a keynote speech indeed. Not one person in the great audience at the Carnegie hall meeting was in doubt for one moment as to just what he meant by everything he said.

His address was comprehensive, logical, clear and all sufficient for the occasion. There can be no dispute as to this. Plainly Mr. Hughes is a man who "knows what he wants when he wants it," and it is the opinion of political authorities who heard him and who have since read his remarks that he knows also how to get it.

It was incumbent upon the Republican candidate to confine the scope of his remarks to the limitations of the occasion, but his crushing analysis of the shortcomings of the present administration of the goverument is merely an earnest of what the tone and the contents of his speeches will be when he gets on the stump.

At Carnegie hall Mr. Hughes adverted to every general question that is apt to be a serious issue in the campaign and in language that will be absolutely clear to every man or woman able to read he stated his opinions, his convictions and his purposes. On the stump he will argue those points in detail. As an orator he is eloquent, his personality attractive, and his marshaling of facts so cohesive that he holds his audience to the end. He makes it easy for them to follow him, and his points are not lost.

There was nothing equivocal, nothing apologetic in the Republican candidate's speech of acceptance. He called a spade a spade, and the unanimous opinion of those who heard him was that he shot to the center and rang the bell. The Republican campaign is now open, and those who will speak and write and work for the success of the Republican ticket can wish for no more adequate campaign document, no more satisfactory statement of issues than are found in the candidate's salutatory.
